

I am writing to express the great need for K-Love radio in my community. I have been financially supported for 2 years because I know what a great job this station does of helping feed the hungry, clothe the poor, and feed the spirits of all who listen. It is more than just powerful music, it is teachings throughout the day to give those listening the message of hope as sent from our Savior. It is afternoon prayers while stuck in traffic that refocus a mother or father's attitude prior to arriving home to the family. K-Love reaches an enormous number of listeners in the valley that would otherwise be unable to hear the sounds of Michael W. Smith, Steven Curtis Chapman, Mercy Me, Avalon, and many other Christian recording artists. The station promotes giving to community by raising monies, reaching out to those in need, and constantly reminding listeners of the value in helping others. K-Love feeds me daily doses of the promise of salvation. It refreshes my soul minute by minute and allows me to hear the type of music that is safe and awesome for my children to hear. Please, please know what a great service K-Love is, not only to my community but to all mankind.
